

## Certificate of Conformity

Print Media Production according to ISO 12647-2 / PSO

### SCHELLING-Group

As part of quality assurance, the SCHELLING Group successfully underwent a company-wide audit and optimization of all processes involved in the print media production process.

With the goal of standard-compliant print production, equipment, capabilities, methodology, and the print results achieved were evaluated in accordance with the recommendations of the BVDM/ ProcessStandard Offset Printing Revision 2016 and Media Standard Printing 2018.

In addition, the SCHELLING Group has demonstrated that it ensures perfect print quality and color consistency on substrates for packaging and displays as well as print products, package leaflets and labels at all production sites and in all printing processes.

The optimization and testing included:

- Technical Environment
- Print data Verification
- Test print Production
- Printing Form Production
- Color Management
- Printing
- Problem Solving Competence
- Documentation and Description of general- and job-related Processes
- Spot Color Quality Assurance

The test was expertly performed by  
Mr. Daniel Pfeiffer, Reprintelligence e.K.
